Framework.

ESG/ Escola Superior Gallaecia and FCO/ Foundation Convento da Orada are honoured to jointly organise, in Vila Nova de Cerveira, Portugal, three important international conferences CIAV2013 - 7thATP - VerSus2013. The main subject of the conference will be Vernacular Architecture.

CIAV 2013 represents the annual conference from the International Committee of Vernacular Architecture of ICOMOS - International Council of Monuments and Sites. In 2011, ICOMOS-CIAV chose the candidacy presented by ESG and FCO to organize CIAV 2013 and VERNADOC 2013 (International Documentation Camp in Vernacular Architecture).

ESG and FCO coordinate the Seminar of Earthen Architecture in Portugal (ATP - Arquitetura de Terra em Portugal) since 2003. The ATP Seminar has been held in Lisbon (1stATP & 2ndATP), Monsaraz (3rdATP_4thSIACOT), Ouro Preto (4thATP_TerraBrasil 2006), Aveiro (5thATP) and Coimbra (6thATP_9thSIACOT). Several Universities, Faculties and Research Centres from Civil Engineering to Archaeology have been invited to receive the ATP Seminar. In 2013, 7thATP is organised in Vila Nova de Cerveira.

In 2012, VerSus Research Project under the European Programme Culture (2007-2013) was approved by the European Union. VerSus was submitted by ESG (Portugal), as Project Leader, in partnership with CRAterre-ENSAG (France), UPV (Spain), UNIFI (Italy), and UNICA (Italy). The project will also receive the collaboration of six institutions from 5 countries (Sweden, UK, Czech Republic, Slovenia and Cyprus). VerSus starts in Oct. 2012 and ends in Sept. 2014.
